

PRESS RELEASE

THREE IS BETTER THAN ONE (...AND TWO)

Middlesex, 6 October 2009 – *gas-elec*, a leader in the field of gas and electrical safety inspections, services, products and advice, will shortly be offering their clients another service in line with the growing trend for a one-stop-shop approach.

“Our fully-qualified engineers will be able to offer our clients the convenience of carrying out an Energy Performance Certificate (EPC) inspection, simultaneously with their gas and electrical inspections,” says John Davidson, managing director of *gas-elec*.

There are a number of benefits to the added service as not only does it mean minimal inconvenience to the tenant, but with *gas-elec* already having the systems in place, it means the quick turn around of certificates.

“It also means less admin and hassle – no more chasing third parties to track down all the necessary certificates, as all the information comes from one service provider,” concludes John.

ENDS/...

Editor's Notes

Founded in 1996, **gas-elec** carries out impartial safety inspections and light remedial works. Its unique inspection service provides the residential lettings market with multiple inspections of the gas and electrics in just one visit. **gas-elec** has over 126 franchisees operating from 18 regional offices, who this year will carry out more than 120,000 safety inspections in domestic properties throughout the UK.
