

## PRESS RELEASE

---

### **GAS-ELEC HITS THE AIRWAYS**

**Middlesex, 20 April 2010** – gas-elec, the leader in the field of gas and electrical safety, services, products and advice, has appeared on DAB digital radio station, Passion for the Planet, discussing ways to achieve heating energy efficiency.

The interview focuses on boiler efficiency and how consumers can play a role in improving the efficiency of their boiler and reducing global carbon monoxide (CO<sup>2</sup>) emissions.

Interviewee John Davidson, managing director of the gas-elec group, provided insight into the effect that CO<sup>2</sup> emissions have on the environment.

“If all the 13 million gas-fuelled homes in the UK had the g-save economiser fitted to their boiler, and if they reduced their fuel consumption by only 20%, that would cut emissions by 8.5 million tonnes of CO<sup>2</sup> each year!”

Fitting the g-save economiser to the central heating system (gas, oil or LPG-fuelled) is quick and easy.

“It is a tried-and-tested, patented product that uses smart technology to optimise the operation of the central heating boiler, improving efficiency to greatly reduce gas consumption and lower annual heating bills,” adds John.

Winner of the Good Housekeeping magazine 'Green Living Award 2009' and finalist for the 2009 Green Business Awards 'Green Product' category, the g-save can reduce annual heating bills by up to 31%.

### **Editor's Notes**

Founded in 1996, *gas-elec* carries out impartial safety inspections and light remedial works. Its unique inspection service provides the residential lettings market and homebuyers and sellers with multiple inspections of the gas and electrics in one visit. *gas-elec* has recently launched a number of new energy-saving products and services. These include the g-save fuel economiser, which reduces fuel bills by up to 31% and a consumer comparison website (*ge-switch*) that offers users the widest range of energy suppliers in order to compare their gas and electricity prices. *gas-elec* has over 130 franchisees operating from 18 regional offices, who this year will carry out more than 130,000 safety inspections in domestic properties throughout the UK. For more information visit [www.gas-elec.co.uk](http://www.gas-elec.co.uk).
